

ALTERYX METRIC STORE

Faster time to insights with ready-to-use metrics

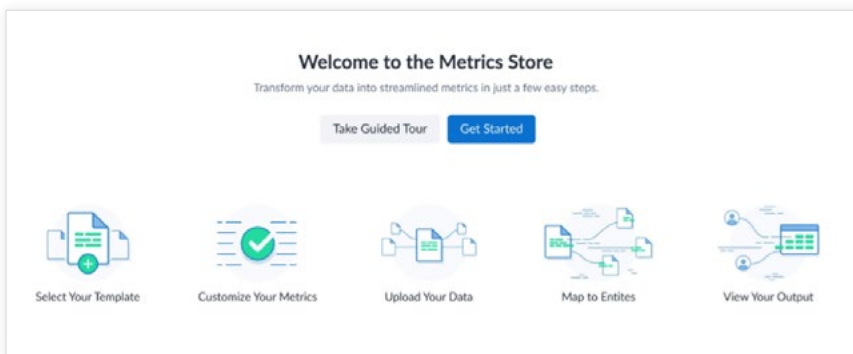

Steve K.
Alteryx User Since 2016

The Fastest Way to KPI

With Alteryx Metric Store, make it easy for your enterprise to standardize on metrics, so that everyone can access and collaborate on these metrics, in real time, irrespective of their skills or roles. **One company, one Metric Store.**

Your best-in-class analytics automation platform, now with one source of truth for consistent, reusable metrics most critical to your business. Trust your analysis and your insights with a single source of metrics. Accelerate time to value with template based KPIs.

ALTERYX METRIC STORE PROVIDES

Template Based Business Logic

— Self-service with no-code UI to quickly define, communicate, and collaborate on KPIs.

Metrics Catalog

— Single place for a single source of trust for consistency and access.

Metrics Governance & Control

— Lifecycle management with metrics versioning, history, and lineage, as well as user permissions.

ABOUT ALTERYX

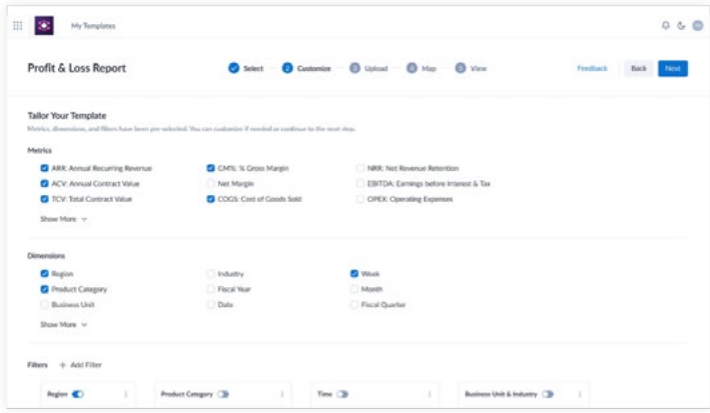

Alteryx is the world's most robust and easiest-to-use analytics automation platform that accelerates the end-to-end analytics process. Organizations of all sizes, all over the world, rely on the Alteryx Analytic Process Automation Platform to deliver high-impact business outcomes and the rapid upskilling of their modern workforce.

Accelerate Standardized KPIs

Define your metrics with cross-functional collaboration for your department's use cases with templated, ready-to-use metrics and a no-code UI to accelerate deployment and time to value.

Democratize KPIs

Share metrics and mappings with all teams and all business users for consistent reuse and repeatability. As a cloud native solution, execute queries in real-time on your raw data, even for large scale deployments. All in one seamless solution that's remarkably easy to customize and for everyone to use.

Govern KPIs

Ensure consistency and accuracy of metrics with metrics lifecycle management through versioning, history, and lineage control. Distribute insights with precision with fine-grained user permissions.

Scalable

As a cloud-native SaaS solution, setup is template based and customizable, and execution is scalable and performant. Connect your data and share critical KPIs from one source of truth and one source of trust.
