

ALTERYX PLATFORM SYSTEM REQUIREMENTS

For a complete list of system requirements, and supported data sources visit: www.alteryx.com/platform

Prepare, Analyze and Model

Alteryx Designer provides the self-service data analytics mechanism for analysts to prepare and blend data from all of their relevant data sources. Using an easy to use drag-and-drop workflow interface, users can leverage built-in tools to quickly cleanse, prep, and blend data without having to write code. Enrich your data with packaged third party demographic, firmographic and spatial data. Leverage the repeatable workflow to automate and output results to reports, excel, and leading visualization tools.

Alteryx Designer empowers users to understand the health of their data at every step of the analytics process through in-line visualytics. In addition, that same drag-and-drop environment provides a code-free environment with powerful tools for statistical, predictive, prescriptive and spatial analysis, while also enabling code-friendly analysis from R and Python.

Share, Scale and Govern

Alteryx Server provides the foundation for organizations with the enterprise scalability, automation and governance that is required across the analytics pipeline. It enables collaboration across teams and lines of business through the sharing and publishing of workflows, macros and reports. It provides the automation and scheduling of analytics process and reports to improve efficiencies, all in a governed environment that provided role-based access and version control.

Deploy and Manage

Alteryx Promote makes it easy for enterprises to deploy, manage, and monitor production based predictive and machine learning models. Quickly deploy analytic models whenever & wherever you choose - real-time or in batch; on-premises or cloud. Embed Alteryx, R and Python models into directly into production applications via API. Then manage and monitor the performance and health of models.

About Alteryx
Alteryx Inc. offers an end-to-end, analytics platform which empowers people to break data barriers, deliver insights, and experience the thrill of getting to the answer faster. Business analysts and data scientists alike can discover, share and prep data, perform analysis, and deploy and manage analytic models. Enterprises all over the world rely on Alteryx to deliver actionable insights daily.
