

CASTOR + THE INFORMATION LAB, NETHERLANDS ANALYZES COVID-19 MEDICAL RESEARCH TO SAVE LIVES WITH ALTERYX

X

5 DAY MANUAL META-ANALYSIS PROCESS
AUTOMATED TO JUST 5 MINUTES

“Helping medical researchers maximize the potential of their data is powerful as it enrich their studies and ultimately improve the conclusion. We strive for that at Castor.”

LOCATION

Europe

1 GOAL

“The priority was enabling our customers to take their data and quickly generate insights in a chaotic global environment.”

2 STRATEGY

“The Castor platform feeds data into Alteryx APA Platform, where it is transformed, analyzed, and then pushed back out to Tableau for visualisation.”

3 RESULTS

“Automation of those processes would get us to the insights quicker and that would help us save lives.”

4 NEXT STEPS

“Every day we are starting new trials, and we will also start investing in capturing and standardizing data for competitive advantage and to create exponential value out of the combination of all these projects.”
