

# Ares Management Leverages Alteryx to Operationalize Business Processes

Over 150 hours of time freed up for credit team to through one workflow

1

## Goal

"We needed to find a solution to automate processes, break down silos between our teams and provide better access to insights."

2

## Strategy

"We quickly saw Alteryx as the proper technology facilitator to help speed up and operationalize processes."

3

## Results

One of Ares' teams reduced a process that was taking **2 months to complete once a year down to 2 to 3 minutes.**

4

## Next Steps

"We need to ensure that data is accessible across all teams in a centralized way, and continue to work with our governance teams to make sure our data is secure."
